

## Birmingham Drop In Cancer Support Centre

In partnership with  **Birmingham City Council**

As part of the HelpHarryHelpOthers Cancer Charity the Birmingham Drop In Cancer Support Centre has been created based on a personal journey with Cancer.

The centre has been created to offer a 'home from home' environment to patients and anyone touched by any type of cancer. Outside of hospital treatment people feel quite isolated and vulnerable and sometimes need extra support because of how the Cancer Diagnosis has impacted on their lives, and this is where we come in.

### **Our Mission**

If families merely want to come in for a cuppa and a chat - that's fine. Our aim is to offer any support that's needed outside of treatment from under one roof. We offer that time, support, understanding and empathy. Our services are here to help families through areas where Cancer has caused hardship in their lives. We offer a Cancer community hub where everyone in the centre understands your emotions and we can offer that shoulder to lean on and support at hand at whatever level is required by you as an individual.
