

Some of you may have wondered what has happened to our Newsletter.

Well it is still in being, it has been affected by one or two elements relating to the well being of the Chair, which were being overcome when.....

Poseidon and his pal Neptune Came to call

The Gods released that well known clear elixir '**Severno Trento**' from the highest point in the Chairs Chateau, cascading through light fittings, switches etc., and created a rather dramatic water feature over his computer desk. Not to be outdone the rest of the Chateau wanted to be involved and they were not disappointed.

Offers from Las Vegas to emulate the spectacle have been turned down.

A Drying out period is now required, (Not for the Chair, but for the Chateau!) So, an enforced stay in a Hotel has been prescribed!

Meanwhile.....

Information on the merger with Birmingham and Solihull Clinical Commissioning Groups is somewhat lacking. Hopefully information will come to hand shortly, as the 1st ~April looms large!

The last two Patient Panel meetings have been cancelled at the Solihull CCG. Communication would be good.

Just as soon as we hear of any news we will circulate.

Meanwhile.....

Some news from the Solihull GP Alliance

Four of the Alliance members are exploring the possibility of merging together as one unit to be known as The Solihull Healthcare Partnership, this relates to 7 surgeries as follows:

Bernays and Whitehouse

Grove Road Surgery

Shirley Medical Centre

Blossomfield Surgery

Haslucks Green

Haslucks Green Medical Centre

Jacey

The Jacey Practice, Northbrook Medical Centre

Dickens Heath Surgery

Monkspath

Monkspath Surgery.

Early indications are that they will still be part of the Alliance.

Meanwhile.....
